EXHIBIT "A"

Section 2. Connection to Distribution System.

- A. A property owner shall properly fill out an application form (water service connection Application) and pay a fee with the application per Section 2. (B-1) schedule.
- B. Fees shall be:
 - 1. Connection fees shall include the following fixed fee plus any labor, equipment and material expense incurred by the district, if costs exceed the connection fee.

a. Single Family Residence	\$2500.00
b. Dairy Farm	2500.00
c. Restaurant/ Bar	2500.00
d. Motel/Hotel/ Multiple Dwelling	2500.00
e. Mobile Home Park	2500.00
f. Public Recreation Area	2500.00
g. School	2500.00
h. Correctional Facility/Prison	2500.00
i. Commercial establishment (store)	2500.00
j. Laundromat	2500.00
k. Car wash	2500.00
- C. The connection to be installed by the water district shall be from the water main to the meter pit with meter and outlet curb stop.
- D. Where connection within the district requires the extension of a main or lateral, such extension shall be at the sole cost of the property owner. No main shall be extended across private property unless an easement is provided.
- E. In the event a main or lateral is extended under section 2.D hereof, and, within five (5) years of such extension other users are added to such extension, the original property owner that paid for such extension shall be rebated a portion of the cost of the original extension, prorate on a per foot basis, which rebate shall be charged to the new person connecting as an additional connection fee.
- F. **WATER STANDARDS FOR WATER INSTALLATIONS:**
 - Pipe: Minimum ¾" with rating of 200psi. Pipe may be cooper or HDPE(CTS). Pipe must be covered with 60" of earth or insulated to the equivalent of 60".
 - Fittings: Fittings must be stainless steel or brass with "N/L" (no lead) stamped.
 - Welded joints and fittings are acceptable with HDPE piping.
 - Tracer wire must be used on plastic pipe.
 - A valve must be installed at the end of the line where the line connects to the home.
